Apache Friends and Bitnami are cooperating to make dozens of open source applications available on XAMPP, for free. Bitnami-packaged applications include Wordpress, Drupal, Joomla! and dozens of others and can be deployed with one-click installers. Visit the Bitnami XAMPP page (https://bitnami.com/xampp?utm_source=bitnami&utm_medium=installer&utm_campaign=XAMPP%2BModule) for details on the currently available apps.

Check out our Bitnami for XAMPP Start Guide (https://www.apachefriends.org/bitnami_for_xampp.html) for more information about the applications installed.

We are working on making Bitnami add-ons available for PHP 7, it is possible the current add-ons do not work well with this version.
